The Wainwright location of Carson Energy Services consists of three separate groups of facilities. The main location, at 1718-23<sup>rd</sup> Ave. was created in 2005. It has a 16,200 sq. ft. maintenance & truck shop, a 4,800 sq. ft. welding shop, and 7,000 sq. ft. office facility, located on 16 acres.

The second location, at 1910-15<sup>th</sup> Ave. is a 5,472 sq. ft. welding and machine shop for retail business, located on a one-acre lot.

The third facility can be found at 1913-7<sup>th</sup> Ave. It consists of a 9,600 sq. ft. industrial storage facility, which like the main location, was built in 2005.

This branch has a footprint covering the province of Alberta and near the Alberta-Saskatchewan border.

Pipeline construction accounts for the majority of operations of this branch.

Personnel are highly trained and have extensive experience in steel and Fiberglass construction, roads, and lease and plant site construction.

Complete gas plant and oil facility construction is another area of expertise. Facility construction covers well site facilities, above ground pressure piping, and field and shop fabrication.

Supervisory personnel at the Wainwright branch have no less than 5 years and up to 25 years' experience in the oil and gas industry. An excellent rapport has been developed with all government agencies and departments, and as with all CES locations, safety is of the utmost focus at all times.

**To discuss how Carson Energy Services can play an integral role in your upcoming projects, please contact one of our staff members:**

**Ryan McClennon**  
Wainwright Area
